Subject: RE: ASPECT Flight Index Shapefile

Eric,

Sorry. I got my wires crossed on this request and what we provided did not have the attributes you requested. We will work on that and have the attributes added to the flight lines. If you feel the need to still have a call, please let me know and I and one of my team members will call in.

Thanks,

Mark/Tim,

Is there an update? Can we get on the phone so we can discuss?

Thanks

Subject: ASPECT Flight Index Shapefile

Hello.

First thank you all so much for the work on the tile services. We have one more ask that would greatly assist us in keeping tabs on things. Could I ask the ASPECT Team and the OEI team to work together on developing an index shapefile that includes the following attributes:

Polygon of the Extent	Flight Number/ID	Mission Type [RNA, ARKEMA, ETC.)	Date Flown	Tile Service URL	Chemical Detections Y/N
-----------------------	------------------	----------------------------------	------------	------------------	-------------------------

This shapefile will make things a lot easier on us for getting this information out.

Additionally once the index is complete, I'd like to connect with the ASPECT team to discuss the overflights that have had chemical detections, we need to get yall synced up with the ENVL so we can get on the same page as far as messaging and analysis.

If there are questions please let me know.
